January 2014

Dear Partner,

I want to thank everyone who is helping to fill the container of materials to Nicaragua. You have been so generous, and the materials are still coming. As of this moment, I don't know for sure if it will all fit in a 20-foot container; or if I will need a 40-foot container. Praise the Lord! The fact that materials are still arriving means that I will not be able to send the container until May. The items have come from churches and individuals. It has been, and continues to be, a tremendous blessing. This will literally change the lives of thousands of people.

The Bible Institute will be blessed by the overhead projectors. The small schools in the bush will be able to educate the children much easier with the supplies and teaching tools donated. We will be able to begin the sewing classes, the wood working classes, the cooking classes, and the welding classes with all of the tools and supplies you have given. The donated clothing will help the masses. God bless each of you for all you have done and are still doing!

We will have our promotion of our classes in the Bible Institute in February, and there will be approximately 40 students promoting to the next level. God willing, we will be starting our fourth year.

We believe that 2014 is going to be the best year we have experienced with the peoples on the Atlantic coast of Nicaragua. The last nine years have been great, and we have seen the Lord do great things; but we believe that we will see even greater things this coming year. Without you, these things could not have been accomplished. You are an equal partner with us as we reach out to touch these people with the love of our Lord. Thank you so much for your prayers and giving. As always, I am:

Amazed by Him,

Thom

Some of the Materials to fill the Container
